Rebiome family highlight:

Microbiome-friendly formula
Pre- & Probiotic Complex
100% Vegan and natural content
Dermatologically tested and safe to use*
Allergen-free fresh scent*
Sustainable & Eco-conscious**
Made in Denmark

A long-lasting, broad spectrum sunscreen

Protecting your skin from the sun's powerful UV rays is vital to minimise the risk of sunburn, skin cancer and premature signs of ageing such as wrinkles and dark spots. Combining a tinted face cream with a microbiome rebalancing sunscreen and blue light protection, Rebiome ReFence is a broad-spectrum cream formulated with hyaluronic acid to moisturise and care for the skin. In vivo testing showed it to have a sun protection factor of SPF 38. The reef friendly, UVA/UVB protectant contains pre- and probiotic enhancing complexes to rebalance the skin's microbiome.

Balance and boost your skin microbiome

Providing long-lasting, broad spectrum protection from the sun's powerful UVA and UVB rays, blue light and pollution damage, Rebiome ReFence contains Fensebiome™ to stimulate the skin's natural probiotic activity. It is enriched with potent anti-ageing antioxidants and nourishing vitamin E and baobab and macadamia oils. Easily applied and quickly absorbed by the skin, it is tinted with a hint of colour and does not contain endocrine disruptors.

Easy use

Apply 2 pumps of Rebiome ReFence to the face and neck after moisturising.

For daily use. Suitable for all skin types.

Balanced healthy skin

Reboot your skin to its natural, healthy balance with our microbiome-friendly formula.

Powerful ingredients

Dermatologica tested high-quality actives, natural ingredients with unrivaled pre- and probiotic stimulating effects.

Eco-conscious

Nature-friendly, supporting a sustainable lifestyle for greener living. 100% Vegan and Cruelty-free.

Simplicity in choice

Skincare for all skin conditions, skin types, ages, or genders. Easy-to-use and multifunctional. Authentic, high-end beautiful skincare products at affordable prices.

*100% natural preservatives. Free of harmful chemicals. Silicone-free (replaced by natural oils) and no allergens in the formula from the 26 known fragrance allergens declared by EU to avoid. Natural vegetable replacement for silicone. Our DHHB filter in our sunscreen qualifies for EU UVA-PF/SPF recommendation and is considered ocean and coral-reef protective sunscreen filters.

** Choosing Rebiome skincare, you make a positive difference protecting your skin – and our planet. You help support our environment reducing carbon footprint.

#5 ReFence – Tinted Sunscreen SFP 30

Powerful Key ingredients with multipurpose properties

Key ingredients	Description
UVA Blocking Filter 4,5%	Protecting skin from the sun's harmful UVA rays, this blocking filter also provides outstanding protection from free radicals and against damage. The oil-soluble filter qualifies for EU UVA-PF/SPF recommendation. It is free from preservatives and delivers long-lasting facial sun care with anti-aging effects.
Organic UVB-filter 3%	Absorbing UVB radiation, this powerful filter has high absorptivity. Only a little is required to achieve a high sun protection factor (SPF). It has excellent photo stability and compatibility with other UV absorbers.
Photostable Broad-spectrum Filter 2%	This broad-spectrum filter efficiently boosts UVB and UVA protection at low concentrations. It is compatible with both organic and inorganic UV filters, providing photostable, effective and long-lasting protection against UVA radiation.
Macadamia Oil 2%	Rich in vitamins and minerals, macadamia oil is absorbed quickly into the skin without leaving a greasy film to leave skin silky soft and hydrated.
Baobab Oil 1%	Protects the skin against damage from inflammation while nourishing, softening and promoting wound healing.
Fensebiome™ Amino Acid Peptide 1%	A powerful peptide with a prebiotic approach and probiotic effect. Stimulates the skin's natural probiotic activity, boosting its defenses by favouring beneficial bacteria that improve skin immune response and physical barrier integrity. The unique microbiome-stimulating active helps to rebalance skin health for optimal wellbeing.
Natural Extracts from Chicory Roots 1%	Pre- and probiotic skin microbiome-friendly extracts derived from the root of the chicory plant. A strong stimulant with a prebiotic approach and probiotic effect, it supports the growth of lactobacilli and blocks the invasion of e.g. fungi, boosting the anti-microbial effect and strengthening the skin's microbiota barrier.
Hyaluronic Acid 0,05 %	A natural humectant, hyaluronic acid preserves the elasticity and firmness of the skin by retaining moisture, giving a softer feel and more youthful appearance.
Natural Vitamin E 0,5%	With natural antioxidant effects and derived from natural sources, vitamin E is regarded as the most important skin-protective vitamin, helping to ensure skin is soft and smooth while reducing irritation.

*Pre- and probiotic Stimulant Actives
